2024 - Collaborated on the establishment of the Vetcardio Academy educational program for general practitioners in the Czech Republic.

Languages

Czech (native)

English C1

About Me

I graduated from the University of Veterinary and Pharmaceutical Sciences in Brno in 2009 (DVM) and, in 2016, completed my European Master of Small Animal Veterinary Medicine in Cardiology (EMSAVM) at ESAVS. During my training, I undertook multiple cardiology internships at leading international universities and referral centres. Since 2012, I have lectured regularly on veterinary cardiology both in the Czech Republic and abroad. In 2014, I was accepted into the PawPeds HCM screening program for feline cardiomyopathy. I am a published author of national peer-reviewed articles. My clinical focus includes advanced echocardiographic diagnostics (including 3D imaging), interventional cardiology, and electrocardiographic evaluation with Holter monitoring.

Work Experience

2013 - present

Vetcardio_CZ

- Veterinary surgeon
 - Cardiology
 - Interventional cardiology

2015 - present

Vetklinika s.r.o.
